REQUEST FOR CORRECTED FILING RECEIPT

Office of Initial Patent Examination's Customer Center
Washington, D.C. 20231

Dear Sirs:

The above-identified patent application, Serial No. 10/006,955, was given the official filing date of December 5, 2001, which is incorrect. Applicants respectfully request correction of the filing receipt, a marked-up copy of which is enclosed herewith, to indicate that the application was filed on November 5, 2001. Enclosed herewith, is a copy of the postcard receipt which was stamped as received by the United States Patent and Trademark Office on December 5, 2001 but which indicates, on the face thereof, that this application was filed via the Express Mail provision of 37 C.F.R. 1.10 on November 5, 2001, using Express mail label number EK657822186US. Applicants also enclose a copy of the pertinent Express Mail receipt indicating that the date this package was deposited with the U.S. Postal Service was November 5, 2001 (11/05/01). Still further, the Express Mail Certification on the application transmittal (a copy of which is enclosed) also indicates that this application was

filed using Express Mail on November 5, 2001. Based on this evidence, applicants respectfully request the United States Patent and Trademark Office to issue a corrected filing receipt indicating that the actual filing date of this application was November 5, 2001, instead of December 5, 2001.

Respectfully submitted,

By:

Roger A. Heppermann

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Detection and discrimination of instabilities in process control loops

Preliminary Class

702

RECEIVED
JUL 19 2002
TC 2800 MAIL ROOM

LICENSE FOR FOREIGN FILING UNDER
Titl 35, United States Code, Section 184
Titl 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**Box Patent Application
Commissioner for Patents
Washington, D.C. 20231**

Sir:

Transmitted herewith for filing is the patent application of

Inventor(s): Kenneth W. Junk

Title: "Detection and Discrimination of Instabilities in Process Control Loops"

1. Type of Application

- ☐ This is a new application for a
- ☐ utility patent.
 - ☐ design patent.

☒ This is a continuation-in-part application of prior U. S. patent application serial number 09/370,474, filed August 9, 1999, which is a continuation-in-part of U. S. patent application 08/939,364 filed September 29, 1997, which is also a regular filed application based on provisional application 60/098,464 filed August 31, 1998.

CERTIFICATION UNDER 37 CFR 1.10

I hereby certify that this Patent Application Transmittal and the documents referred to as enclosed therewith are being deposited with the United States Postal Service on **November 5, 2001**, in an envelope addressed to the Commissioner for Patents, Washington, D.C. 20231 utilizing the "Express Mail Post Office to Addressee" service of the United States Postal Service under Mailing Label No. EK657822186US.
